Welcome from our Board:

Dear Parents/Guardians and Community Partners,

One of our greatest joys is to thank our parents/guardians for entrusting their children to Roosevelt Children's Academy (RCA) to provide students with the highest level of education. We value the incredible commitment of our school community, teaching faculty, and staff. RCA provides a rigorous academic program complemented by enrichment opportunities, empowering our students to achieve outstanding results as they prepare for high school, college, and beyond.

We are grateful to our community partners and stakeholders for their unwavering support and continued encouragement to educate our children from Roosevelt and surrounding communities. RCA was founded on the premise that every child can succeed if given the right opportunity to learn in a safe, nurturing, and supportive environment. This commitment to our students' well-being is at the core of our philosophy, and we believe it still holds true today. Therefore, when we educate our students, we not only change communities but also transform our society.

We are deeply appreciative of your dedication and commitment as we prepare for the coming year together. While academic challenges may appear to be facing us, we want to assure you that we have every confidence in our teaching staff and parents/guardians. With your support, we are confident that our students will meet and exceed these challenges.

We are excited about the upcoming school year. With the complete confidence of the Charter School Institute, the support from parents and guardians, the dedication of a very talented leadership team, teaching faculty and staff, the hard work of students, the selfless service of administrators, and the purposeful vision of the Board of Trustees, we are confident that we will see new levels of accomplishments in all areas at Roosevelt Children's Academy.

We thank you again for your service and support in serving the children in our community.

Sincerely,
Rev. Reginald Tuggle - Board Chair
